This manual, and the associated attunement, are to be given freely and never sold. This attunement is a gift, and is to be treated as such.

The Eyes Wide Open Attunement is designed to open up your psychic senses by amplifying your chakras and and stimulating your subtle body's senses. It is also designed to unlock your inner power, your innate abilities that have yet to be searched out and explored.

Receiving This Attunement

To call in this Attunement, sit in a meditative pose, take a few deep breaths, and say or think, “I now receive the Eyes Wide Open Attunement sent to me by (Teacher’s Name). I am grateful for it, and ready to receive it. Thank you.” Allow the attunement 15 minutes to enter your body and bond with your energy. And that’s it! It is a very simple process, both to send, and receive.

Passing This Attunement

To pass this attunement to another, meditate for a moment to set your intent, and then say or think, “I now send the Eyes Wide Open Attunement to (Recipient’s Name), perfectly. Thank you.” Allow 15 minutes for the energy to fully transfer, after which they may call it in at any time.

Unlocking Your Inner Abilities

After you have called in this powerful energy, it will flow naturally, finding and unlocking portions of your mind, your hidden talents, that have been locked away. However, there is a simple exercise that can help speed this process along.

Meditate, and visualize a large gate before you. It may be locked, it may simply be closed, or it may appear as a portal. Whatever you see before you, know that behind this door, your inner power awaits. Follow your intuition, and open it. Step through this door, and see before you an altar prepared for ritual. At its heart will be a glowing crystal. This crystal is your power, it is everything you have been locked away from. You can practically feel it

from here. Walk to the altar, take the crystal in your hand, and feel it vibrating with raw energy. As you hold it, you see it melt into colorful energy and flow into your body, becoming one with you, and awakening you to your gifts. Allow as much time as you need, and when you are finished, step back through the gate and open your eyes.

Opening Your Senses

As before, this attunement will naturally expand your senses, but there is a way to advance this process. Gaze at the picture above, and allow its energy to flow into you as you focus on allowing this attunement to open your senses. While doing so, recite the mantra, OM. This will further your connection to the Divine, and advance your

psychic growth. 15 minutes of this a day will work wonders on your advancement!
